Standard Laptop Procurement Project

create_catalog_task.js

```
// Create Catalog Task logic.

function createTask(request, shortDescription) {
  if (!request) {
    throw new Error('Requested Item is required.');
  }

  return {
    requestNumber: request.requestNumber,
    requestedItem: request.requestedItem,
    shortDescription:
      shortDescription || 'Laptop need to Configured',
    description:
      shortDescription || 'Laptop need to Configured',
    assignmentGroup: null,
    state: 'Open'
  };
}

module.exports = { createTask };
```
